Dokumentasi Reuse Pertemuan 3 Maulana Muhammad Yusuf Frasha

1. Membuat design sederhana.

2. Menambahkan Dependency / Reuse program.

```
# Uncomment the next line to define a global platform for your project
# platform :ios, '9.0'

target 'DependencyReuse' do
# Comment the next line if you don't want to use dynamic frameworks
use_frameworks!
pod 'DropDown'
pod 'Alamofire'

# Pods for DependencyReuse
end
```

3. Menambahkan code program (kiri) dan Reuse code CustomToast (kanan).

4. Membuat code untuk menerima RestAPI nama-nama negara.

5. Hasil akhir.
